PRODUCT DATA: READY MIXED FILLER

INSTRUCTIONS:

READY MIXED FILLER should not be diluted.

Regarding smoothing surfaces, it is advisable to always do it vertically from bottom to top. Always place excess material and then remove the excess. When the material dries, sand and then apply another layer of plaster horizontally from right to left.

For a flawless finish, the surface should be sanded after the second layer and painted with PRODEPA paint.

PACKAGING:

Packet: 1 Kg or 5 Kg and bags: 15 Kg
